

OPERATING BEYOND THE EXPECTED™

THE DETACHATIP® II SYSTEM

THE MULTI-USE ENDOSURGERY
INSTRUMENT SOLUTION

 CONMED
ENDOSURGERY

An Unmatched Combination of Efficiencies

The DetachaTip®II System from ConMed Corporation provides the ultimate balance between a reusable and disposable hand instrument system. This unique two piece handle and integrated shaft instrument concept delivers excellent cleanability, cost reduction, and consistent performance by enabling you to easily replace high quality, multi-use components as needed. Designed to withstand the rigors of multiple use, these instruments dramatically reduce procedural costs. DetachaTip®II eliminates costly repairs and inconsistent performance of conventional reusables. Only DetachaTip®II offers you this combination of efficiencies in performance and affordability.
