All In One Instrument System

Universal Plus® Straight Handle

A small size pencil grip configuration with color coded E/S buttons or rocker switch activation for precise surgeon control. Familiar trumpet valve S/I buttons are concave/convex and color coded for easy identification. The tethered S/I tubing and E/S cord eliminate entanglements and are directed downward at a 45° angle, to minimize surgeon fatigue.

Electrosurgical Control Options

Hand Controlled Cut and Coag via E/S Buttons with tactile feel and click Hand Controlled S/I

Hand Controlled Cut and Coag Rocker switch Hand Controlled S/I

Foot Controlled Cut and Coag with Universal Cord Hand Controlled S/I

Interchangeable Electrode and Cannula Connection

Universal Plus® Pistol Grip

Familiar pistol grip handle design...for surgeon comfort and control. All activation buttons are color coded. The raised S/I controls offer proportional flow control and the convenient cut/coag buttons feature the desired tactile "click" and S/I tubing and E/S power cord are tethered together to prevent entanglement.

Electrosurgical Control Options

Hand Controlled Cut and Coag via buttons with tactile feel and click Hand Controlled S/I
