

Innovation Designed for Outpatient

Delivering the tools you need to get patients in and out

■ CLINICAL VALUE

Intuitive, innovative product from a collection of storied brands you know and trust

■ OPERATIONAL VALUE

Durable and efficient solutions built to last, with strong service and loaner programs to support you long after purchase

■ FINANCIAL VALUE

Customized financial programs ensure you have technology that meets your demands at a cost you can afford

We help you evaluate the granular pieces, uncovering cost containment strategies that add up over time. Based on your “big picture,” we can customize standardization projects and plan for long-term capital investments.

Total Value for Total Joints

If a new powered instrument system is on your horizon, let Hall® Power get you there.

Refined for peak performance, the Hall® Titan® Series is the next generation of orthopedic power tools. Experience power, precision, and reliability from a name that's been trusted for over 55 years.

For the ASC that knows time is money, we can have you saving money in no time.

6-Month Payment Delay — Get It Now, Pay For it Later!

Operating Agreement — Easy monthly payments from your operating budget

Backward Forward Compatible —

You're never forced to buy new attachments and accessories when upgrading handpieces

Cost-Effective — Lower initial purchase costs and lower lifetime operational costs¹

Versatile — Reduce cost with a single system platform for large and small bone procedures

Reliable — IPX 6, IPX 8, & IPX 9 ratings provide market-leading water intrusion protection²

Efficient — Rapid-charging, UL-approved autoclavable lithium batteries eliminate blue wrap and tedious separate sterilization cycles

Hall® Titan® and Primecut+™ Oscillating Saws provide the speed and precision your surgeons will love, with a hub that eliminates the need for a second oscillating saw.

¹ Compared to Stryker Systems that require two different handpieces for large and small bone and non-autoclavable batteries that require separate, more costly sterilization.

² Data on File, UL file E350964-D1012-1/A2/C0-UL, TR13-853 and TR14-008.

Starting a Total Joint Program at your ASC?

Schedule a no-obligation evaluation with your local CONMED Sales Representative by calling 1-866-4CONMED or visit www.CONMED.com/Titan for more information.
