CONMED

HiFi®

Ribbon, Tape, and Suture

To meet the needs of a specific procedure or surgeon preference, CONMED Hi-Fi® Ribbon, Tape and Suture are designed to provide maximum compression for optimal repair integrity while minimizing tendon abrasion and tear-through.[1,2,3]

Data Shows Hi-Fi® is Better!

The suture-tendon interface represents a critical component of repair security in orthopedic procedures.

Discover the benefits of CONMED's Hi-Fi® Ribbon, Tape, and Suture. [1,2,3]

Hi-Fi® Ribbon

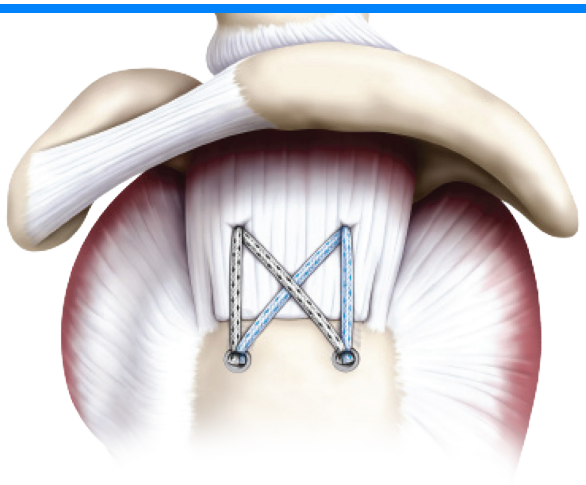

Designed for broader compression while still allowing surgeons to tie sliding knots.

- With a 1.3 mm width, Hi-Fi® Ribbon is twice as wide as #2 Hi-Fi® suture and is designed to provide broader compression for more tendon to bone contact
- Designed to help reduce the abrasion and post-operative pain that could be caused by large knot stacks, Hi-Fi® Ribbon provides smaller knot stacks than #2 suture[5]
- In addition to the wider width, Hi-Fi® Ribbon is 14% stronger than #2 Hi-Fi® Suture[4]
- Hi-Fi® Ribbon is designed to provide the width of a tape-style suture while retaining the ability to tie like a #2 suture
- Hi-Fi® Ribbon flat braid is designed to be easier on surgeon's hands when tying knots

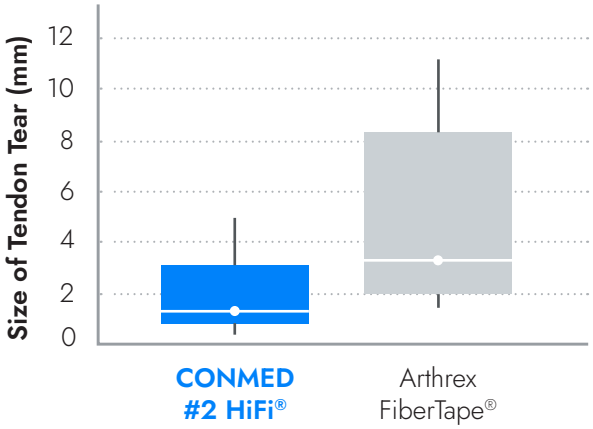

Hi-Fi® Tape

CONMED's widest suture offering, design to maximize tendon compression and prevent tissue tear through.

Tendon Tear-Through by Suture Tape[1]

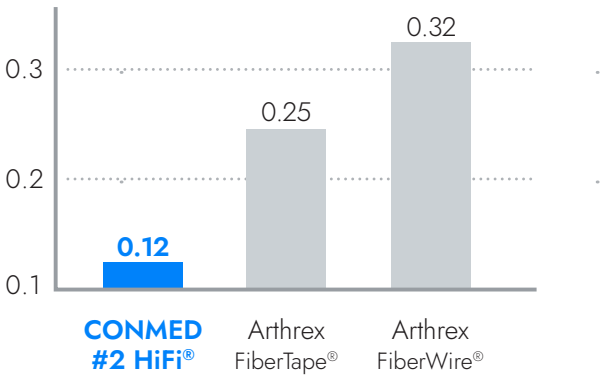

- 69% less abrasive than FiberTape when measuring tendon tear-through[1]
- At 2 mm wide, Hi-Fi® Tape offers broader compression than Hi-Fi® Ribbon and #2 Hi-Fi® Suture for increased tendon-to-bone interface
- More than twice as strong as #2 suture[2]
- Simplifies double-row repairs by eliminating need for medial knot tying

Hi-Fi® Suture

- Braided, non-absorbable suture for soft tissue repair is designed to provide expectional strength for knot tying while helping minimize tendon damage
- Peer-reviewed literature has shown that CONMED's #2 Hi-Fi® Suture reduced mean cutting rate by over 50% when compared to FiberWire and FiberTape, which were more abrasive on the suture-tendon interface and led to higher tendon tear-through[3]
- Micro-core design is intended to improve comfort in surgeon's hands when tying knots
- Available preloaded on all major CONMED soft tissue anchors and individually ranging in size from #2-0 up to #5

Tendon Cut-Through Rate[3]

Ordering Information

Description	Size	Catalog No.
Ribbon		
1.3 mm Hi-Fi® Ribbon, 40" Strand, w/Needle (White/Blue)	1.3 mm	HR713WN
1.3 mm Hi-Fi® Ribbon 40" Strand, no Needle (White/Blue)	1.3 mm	HR713W
1.3 mm Hi-Fi® Ribbon, 40" Strand, w/Needle (Blue)	1.3 mm	HR713BN
1.3 mm Hi-Fi® Ribbon, 40" Strand, no Needle (Blue)	1.3 mm	HR713B
Also available pre-loaded on Y-Knot® Flex and Y-Knot® RC soft tissue anchors		
Tape		
2 mm Hi-Fi® Tape (White/Black)	2 mm	HT7150
2 mm Hi-Fi® Tape (Blue)	2 mm	HT7110
Also available pre-loaded Y-Knot® RC and CrossFT® Knotless soft tissue anchors		
Suture		
Hi-Fi® Suture, Single 36" Strand, White-Blue Co-braid HSCX48 0.50" Cutting Needle	#5	HS5200
Hi-Fi® Suture, Single 36" Strand, White-Blue Co-Braid, No Needle	#5	HS5250
Hi-Fi® Suture, Single 40" Strand, White C-2 0.5" Circle, Tapered Needle	#2	HS5000
Hi-Fi® Suture, Single 40" Strand, Blue, 26.00 mm 0.50" Circle, Tapered Needle	#2	HS6110
Hi-Fi® Suture, Single 40" Strand, Blue 40.00 mm 0.50" Circle, Reverse Cutting Needle	#2	H6140RC
Hi-Fi® Suture, Two 40" Strands, White and White-Blue Co-Braid, C-2 0.50" Circle, Tapered Needles	#2	HS5100
Hi-Fi® Suture, Two 40" Strands, Blue and White-Black Co-Braided, 26.00 mm 0.50" Circle Tapered Needles	#2	HS6210
Hi-Fi® Suture, Single 40" Strand, Blue No Needle	#2	HS6100
Hi-Fi® Suture, Single 36" Strand, White-Blue Co-Braid, No Needle	#2	HS5120
Hi-Fi® Suture, Single 36" Strand, White, No Needle	#2	HS5130
Hi-Fi® Suture, Single 36" Strand, White-Black Co-Braid, No Needle	#2	HS5150
Hi-Fi® Suture, Single 36" Strand, White-Green Co-Braid, No Needle	#2	HS5140
Hi-Fi® Suture, Two 40" Strands Blue and White-Black Co-Braided, No Needle	#2	HS6200
Hi-Fi® Suture, Single 36" Strand, White-Blue Co-Braid C-4 0.50" Tapered Needle	#0	HS5300
Hi-Fi® Suture, Single 36" Strand, White-Black Co-Braid No Needle	#0	HS5310
Hi-Fi® Suture, Single 36" Strand, White, No Needle	#0	HS5320
Hi-Fi® Suture, Single 36" Strand, White-Green Co-Braid No Needle	#0	HS5330
Hi-Fi® Suture, Single 36" Strand, White-Blue Co-Braid HRT22 0.50" Diamond Point Needle	#0	HS5400
Hi-Fi® Suture, Single 36" Strand, White-Blue Co-Braid HR20 0.50" Tapered Needle	#2-0	HS5500
Hi-Fi® Suture, Single 36" Strand, White-Blue Co-Braid HRT20 0.50" Diamond Point Needle	#2-0	HS5600
Also available pre-loaded Y-Knot RC, Y-Knot Flex, CrossFT®, TruShot™ with Y-Knot soft tissue anchors and more		
Specialty		
Hi-Fi® Passing Loop	#2	HL7000
Hi-Fi® SutureLoop, 60 mm Straight Needle, 20" Loop (12 per Box)	#2	HL200
Hi-Fi® SutureLoop, 48 mm Curved Needle, 20" Loop (12 per Box)	#2	HL201
