LaparoVue® Visibility System
Laparoscopic Solutions

Understanding a surgeon’s need to see clearly during laparoscopic surgery, the LaparoVue Visibility System is an all-in-one solution designed to take the complexity out of achieving optimal visualization. An easy to use, disposable device that warms, white balances, cleans and defogs laparoscopes.
LaparoVue®
All-in-One Solution for Improved Laparoscopic Visibility

**Warms and White Balances**
- Warms a laparoscope in 5 minutes to prevent fogging
- Scope Cradle supports and protects during warming and white balancing
- Designed for stability; LaparoVue eliminates surfactant leaks while warming and white balancing

**Cleans and Defogs**
- Provides crisp, clear view in 5 seconds
- Offers a chemical and mechanical clean for superior residue removal while helping to prevent intra-operative laparoscope fogging
- Cleaning and defogging port designed to retain surfactant
- Radiopaque VueTip™ Trocar Swabs remove debris and excess liquid from trocar cannula
- Microfiber Cloth captures large residue and excess surfactant

**LaparoVue Product Features**

**One Unit, Two Ports**
- Warm a laparoscope while cleaning another, reduces preparation time when changing laparoscopes
- Accepts 3 – 12mm laparoscopes without the need for a port size converter
- Warms, white balances, cleans and defogs for up to 5 hours

**Designed for Stability**
- Scope Cradle safely and securely supports laparoscope to reduce the risk of damage
- Upright functionality reduces chances of surfactant spillage

**Easy to remove batteries for disposal**

**No assembly requirement streamlines procedure set-up time**

**Single use for maximum infection control**

**Distinctive By Design**
