ConMed

Stat 2® & Stat 2® Pumpette I.V. Gravity Flow Controllers

Offering convenience and safety to both patients and healthcare providers, Stat 2® provides control of I.V. fluid and non-critical medications when electronic infusion is not medically necessary.

STAT 2®
20 DROP

STAT 2®
60 DROP

STAT 2®
12" EXTENSION SET

Stat 2® I.V. Gravity Flow Control Device

Available in full primary sets for use in various settings such as Acute Care, Sub-Acute Care and Home Care, the Stat 2® provides excellent control of I.V. fluid and non-critical medications.

Key features include:

– One handed operation

– Security window with snap lock minimizing accidental manipulation of dial during therapy.

– Ideal for routine hydration and antibiotic therapies

– Needle-Free versions

Stat 2® & Stat 2® Pumpette Control Devices are available in:

– 20 and 60-drop primary sets with a 15-micron filter within the universal drip chamber, back-check valve, a distal luer/slip lock connector and 84" length.

– Either two split septum "Y" sites, or two swabbable valve "Y" sites.

– Extension sets of 12" with one "Y" site, either split septum or swabbable valve.

Stat 2® Pumpette Compensating
I.V. Gravity Flow Control Device

Easy and intuitive to use, the Stat 2® Pumpette's unique design compensates for changes in both I.V. bag volume, as well as in bag height.

Key features include:

- Pumpette controller can be set at eye level for convenient clinical verification and adjustment
- Security window minimizes accidental manipulation of dial face during therapy
- Ideal I.V. delivery system for routine hydration and antibiotic therapies
- Needle-Free versions

STAT 2® PUMPETTE
20 DROP

STAT 2® PUMPETTE
60 DROP

STAT 2® PUMPETTE
12" EXTENSION SET

I.V. GRAVITY
FLOW
CONTROLLERS

All I.V. controllers contain slide clamp, distal luer / slip lock connection.

All primary sets include a back check valve and universal spike with a 15 micron filter.

These devices are not made with natural rubber latex.

Ordering Information

Description	Quantity		Catalog Number
Stat 2® I.V. Gravity Flow Controllers	Pouch/Pkg	Case	
12" length extension set, controller, 1 split-septum "Y" site, distal luer/slip lock connector	1	60	S2-12
20 drop/mL, 84" primary set controller, 2 split-septum "Y" sites, universal spike, 15-micron filter, back-check valve, distal luer/slip lock connector	1	48	S2V-20
60 drop/mL, 84" primary set controller, 2 split-septum "Y" sites, universal spike, 15-micron filter, back-check valve, distal luer/slip lock connector	1	48	S2V-60
12" length extension set, controller, 1 swabbable valve "Y" site, distal luer/slip lock connector	1	60	S2-12 N
20 drop/mL, 84" primary set controller, 2 swabbable valve "Y" sites, universal spike, 15-micron filter, back-check valve, distal luer/slip lock connector	1	48	S2V-20 N
60 drop/mL, 84" primary set controller, 2 swabbable valve "Y" sites, universal spike, 15-micron filter, back-check valve, distal luer/slip lock connector	1	48	S2V-60 N
Stat 2® Pumpette I.V. Gravity Flow Controllers	Pouch/Pkg	Case	
12" length extension set, pumpette controller, 1 split-septum "Y" site, distal luer/slip lock connector	1	60	P-S2-12
20 drop/mL, 84" primary set, pumpette controller, 2 split-septum "Y" sites, universal spike, 15-micron filter, back-check valve, distal luer/slip lock connector	1	48	P-S2V-20
60 drop/mL, 84" primary set, pumpette controller, 2 split-septum "Y" sites, universal spike, 15-micron filter, back-check valve, distal luer/slip lock connector	1	48	P-S2V-60
12" length extension set, pumpette controller, 1 swabbable valve "Y" site, distal luer/slip lock connector	1	60	P-S2-12 N
20 drop/mL, 84" primary set, pumpette controller, 2 swabbable valve "Y" sites, universal spike, 15-micron filter, back-check valve, distal luer/slip lock connector	1	48	P-S2V-20 N
60 drop/mL, 84" primary set, pumpette controller, 2 swabbable valve "Y" sites, universal spike, 15-micron filter, back-check valve, distal luer/slip lock connector	1	48	P-S2V-60 N
Accessories			
Infant size 5.25" x 2.25" arm support with covers	60 supports, 90 covers		810-L
