

TotalTrace[®]

ADULT FOAM ECG ELECTRODE

CONMED has been a trusted provider of ECG monitoring electrodes since the 1970s. Founded through the launch of an innovative disposable ECG electrode, CONMED now offers a robust portfolio of ECG options to support customer needs.

TotalTrace[®] continues this legacy of ECG excellence. This general purpose adult foam electrode addresses the many needs of hospitals and outpatient centers as an affordable option for routine usage.

Features and Benefits

Conforms to Patient's Skin

The lower profile design of the TotalTrace[®] Adult Foam ECG Electrode and its smaller footprint help the electrode to better conform to the patient's anatomy.

Made in the USA

TotalTrace[®] Adult Foam ECG Electrodes are Made in the USA.

Easy-to-Open

New package design with a laser underscored tear-strip helps to ensure an easy-to-open pouch for emergency situations.

Infection Prevention

Available in packs of 3 and 5 to help maximize infection control and avoid cross contamination issues.

Electrode Options

TotalTrace[®] Adult Foam ECG Electrodes are offered in two options — carbon or metal snaps.
