Imagine what we could do together.

Break Free from Suture Passing Constraints

The latest innovation in CONMED's shoulder portfolio, TruFire™ brings together a nimble, one-handed design with the accuracy and durability you can expect from a CONMED product.

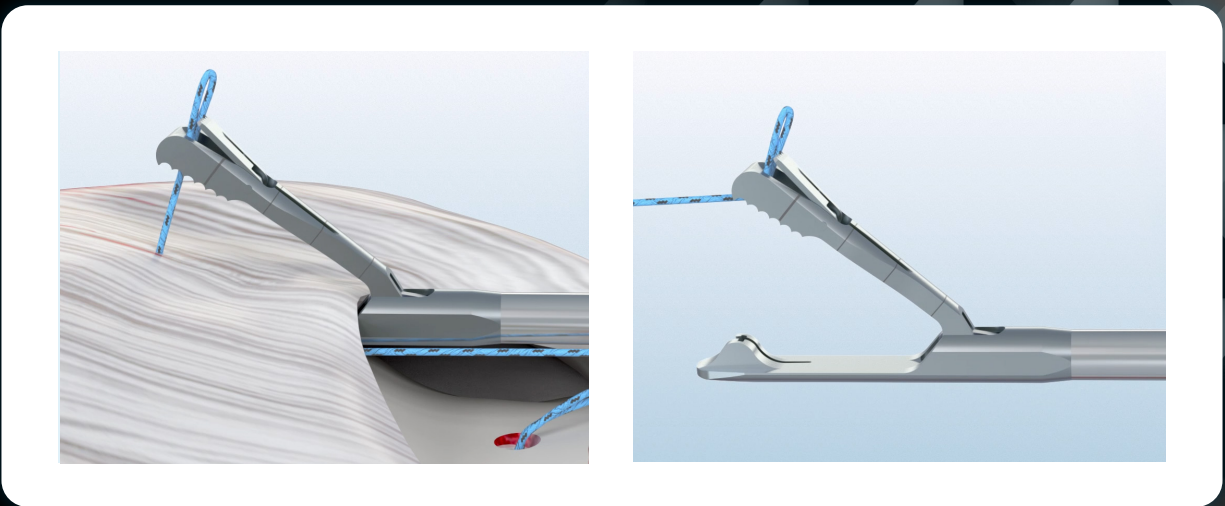

Limitless Precision Empowered by TruFire™

- Large bite depth allows sutures to be placed exactly where needed
- Laser line indicates needle exit for predictable suture placement
- Built to reliably and accurately pass through thick rotator cuff tissue

Imagine what we could do together.

Effortless Use Through Intuitive Design

Suture Passing Made Simple

Ergonomics

One-handed operation with a lightweight handle for better maneuverability

Efficiency

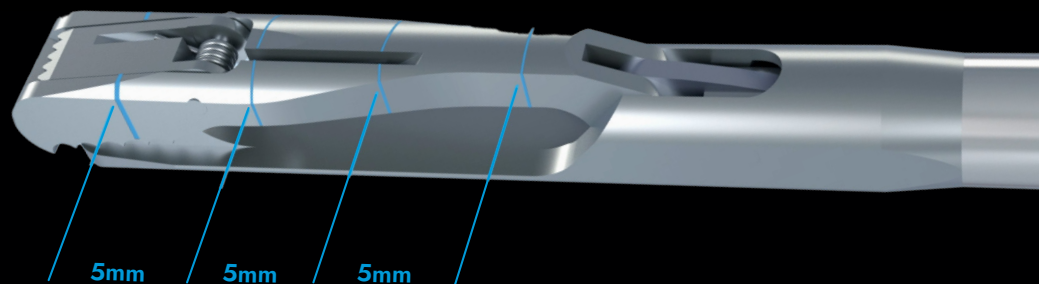

Active trap door captures the suture automatically, streamlining the process

Reference Lines

5mm markings on the jaws assist with intraoperative measurements

Optionality

Offers both ratcheting and non-ratcheting options for different suture passing needs

Imagine what we could do together.

TruFire™ Suture Passer

Elevate Your Surgical Experience
