

## AirSeal® Robotic Solution

Seamlessly integrated with the *da Vinci X* and *XI* systems\*, you can gain the benefits of AirSeal® without the need for an assist port.

\* Compatible with the Intuitive *da Vinci Xi* and *da Vinci X* systems

**AirSeal® provides numerous benefits for MIS, from standard Laparoscopy to the most advanced Robotic procedures:**

- Stable Pneumoperitoneum for consistent exposure even during suction and leaks<sup>1</sup>
- Enables surgeons to operate at Low Intra-Abdominal Pressure<sup>2</sup>
- Constant Smoke Evacuation to ensure visibility throughout the procedure
- Valveless Access to the surgical site avoids fragmentation during specimen removal

**Get the performance of AirSeal® streamlined into your da Vinci procedure workflow, without the need for an assist port.**

➤ **Contact your local CONMED Sales Representative to start using AirSeal® today!**
