THE EXTENDED
WARRANTY
PROGRAM

ConMed Service Technicians

Put your trust in our manufacturer-certified and qualified biomedical technicians to help you get the most out of your investment. With over 25 years of ESU maintenance and service experience, you can rest assured that our trained experts will maximize the life and quality of your ConMed ESU's.

Added Value

Hotline

With the Extended Warranty Program, you will also have access to the Beamer®/BiCap® III Hotline. Talk live with a qualified biomedical technician to answer any questions or walk you through troubleshooting steps for any problems you may have.

Training

Keep your Biomed up to date by taking advantage of one of ConMed's Biomedical Engineer training courses. Your facility's Biomed is eligible for one free training course per each unit that you own during the warranty period.

Contact

If you are interested in extending the warranty of your Beamer® or BiCap® III ESU, or if you would like additional information please contact your ConMed Territory Manager or ConMed Customer Service via phone, fax, or email address below.

Thank You!

ConMed thanks you for becoming a member of the growing ConMed family and for your continued loyalty and support.

THE EXTENDED
WARRANTY
PROGRAM

We have you covered!

The Extended Warranty Program

We would like to offer you the opportunity to take advantage of the Beamer®/BiCap® III Extended Warranty Program. The Extended Warranty program gives you the option to purchase warranty coverage beyond the standard two-year manufacturer warranty supplied with the unit. As your two-year manufacturer warranty is coming closer to its expiration date every day, you may choose to extend your warranty by two years or up to a total of four additional years. The choice is yours!

In addition to Beamer® and BiCap® III, you also have the option to extend the warranty of your Beamer® Irrigation Pump CETEGP-100.

It's Not Too Late!

Units that are beyond the expiration date of their manufacturer warranty are still eligible for the warranty extension as long they are sent in to ConMed Tech Services for an initial preventative maintenance/repair service.

Beamer® Extended Warranty

Provides:

- Coverage on parts & labor for an extended period on CE200/CB200/CETEGP-100
- Warranty repairs provided by trained ConMed personnel
- Includes software upgrades as required
- One preventative maintenance service 24 months after purchase*
- Loaner unit during service if needed

* It is recommended that each CE200/CB200 is serviced for preventative maintenance performed by a Hospital Qualified Biomedical Technician at least every 2 years.

Beamer® Extended Warranty Price List

Generator Warranty	Warranty Code
Beamer® System: CE200/CB200	CE600-EXW2
